

Nurturing Early Learners

Keeping Preschool (and Kindergarten) in Perspective

Vicki Bentley

You have already been teaching your child!

Keep it in perspective

Observing your child

Understanding your child

Nurturing your child

Building foundational skills & character

- Independence
- Order
- Self-control
- Concentration
- Service

Learning through everyday activities (see article on site). His play **IS** his work.

Growth & transition! **Learning is a continuum.**

CONCLUSION: A LIFESTYLE OF LEARNING

Homeschooling during the preschool years is about more than academics. It's about nurturing the whole child—spiritually, intellectually, physically, emotionally, and socially—through observation, understanding, and everyday experiences. Your role as a parent is to unlock your child's potential in a way that feels natural and sustainable. Trust in the foundation you've already built, and remember that homeschooling is as much about nurturing a love for learning as it is about meeting academic goals.
